

BUSINESS INTELLIGENCE, RISK MANAGEMENT & SECURITY SERVICES

Energy Recovery Facility (ERF) Maintenance Outages

Subrosa Group's SRG Security division is the market leader in assisting clients during ERF outages. Refining their services over many years in the delivery of bespoke security & welfare solutions during this critical maintenance period. Clients request both turnkey services and individual elements depending on their exact requirements.

SRG Security provides security personnel, traffic management officers, temporary fencing and CCTV. In addition, temporary facilities such as washrooms, toilets and ablutions can be supplied, along with minibus transportation, to enable maintenance contracting staff to travel to and from site.

SRG Security's management team works closely with the facility's team pre outage to ensure a seamless service is delivered, which safeguards the security of the facility during these essential outage periods.

Services include

- Fully licensed and vetted Security Officers
- Traffic Management Officers (CSAS accredited)
- Temporary Barriers and Fencing
- Site surveys and consultation
- Temporary CCTV & Perimeter Detection Systems
- Temporary toilets and ablutions
- Car park security
- Temporary shuttle transport
