

SAFEGUARDING YOUR PEOPLE AND ASSETS GLOBALLY

PART OF THE SUBROSA GROUP

Superyacht & Private Vessels Maritime Security Services

SRG Maritime Security (MarSec) was established to provide professional risk management and security services to the Superyacht and Private Vessel sectors. Our MarSec teams either deploy either fulltime, or whilst vessels are transiting through high-risk areas. MarSec teams are deployed while at anchor, underway or alongside. Not only do the MarSec teams assist in mitigating hostile acts, they also assist in times of emergency incident – fire or medical for example. All deployments are supported by our 24/7 Security Operations Centre (SOC).
