An international  
business intelligence,  
risk management and  
specialist security company

# Subrosa Group: Origins and Operations

Subrosa Group's close protection teams managed an international vacation incorporating several European cities for one of our clients. The deployment of both male and female operatives ensured all family members had effective security at all times. Flexibility was the key, whilst professionalism was of the highest calibre. Great team and great job!"

**Overseas Coordinator** Middle East Family Office

Subrosa Group Company Structure

Decades of industry expertise and experience cements Subrosa's global reputation as an innovative and trustworthy company providing an unmatched level of customer service through all aspects of corporate and individual security.

The company was founded by the CEO and COO, both former Special Forces Communications Operatives who met over 30 years ago while under interrogation after capture on an escape and evasion exercise in Europe.

Strong bonds forged under extreme circumstances gave them a platform for a unique and lasting business partnership.

The company is still run by the founders, who maintain a hands on approach across all divisions.

Operating teams working for all divisions are drawn from a distinctive blend of former government intelligence officers, police investigators and Special Forces personnel.

SRG operates nationally and internationally providing risk management on technical, cyber and security services for commercial and corporate industries as well as private and ultra high net worth clients.

From threat identification to deployment of control measures to securing people and assets Subrosa's bespoke, personal service provides all the reassurance and solutions that clients are looking for.

## Mission Statement

### MISSION

To assess, mitigate and secure

### VISION

To provide a trusted, bespoke and holistic security service to a global clientele, from project inception to steady state operations

### ASSESS

Business Intelligence: highly qualified intelligence analysts identify threats, risk, fraud and vulnerabilities using unique, innovative software and analytical tools

### MITIGATE

Risk Management: bespoke service to design and deploy appropriate and proportionate control measures to reduce current and future risks

### SECURE

Specialist Security: multi operational business units allow an integrated and holistic approach to effectively secure people, assets and premises

# SRG Special Projects

*I cannot recommend the amazing team at Subrosa enough. They seamlessly swung into action whenever we needed them, and did so with utter professionalism but most of all with a human touch that made the biggest difference."*

**Hannah Ingram-Moore** on behalf of Captain Sir Tom Moore and family

.....

The Special Projects division is at the very core of Subrosa Group operations. This is a bespoke, wrap around consultancy service with an unparalleled level of personal attention from initial enquiry through to steady state operations.

Subrosa provides responses direct enough to defuse high-risk situations while complete discretion is assured to protect client confidentiality and to prevent effective security from being compromised.

The company has developed pioneering work in stalker and threat management delivering an effective, discrete and vital service for high profile individuals.

**Special Projects covers a range of security issues including, but not limited to:**

- Proactive and reactive threat and vulnerability resolution
- Corporate theft and fraud investigation
- Executive and VIP protection
- Business intelligence analysis
- Covert surveillance
- Corporate international investigations
- Security Concept and Integrated Security Design

**SRG Private** specialises in professional, discreet and confidential services for Ultra High Net Worth and High Net Worth individuals, their families and offices.

**Certification:**

SRG Special Projects is a SABRE licensed business. SABRE is a security risk management standard for new and existing buildings, infrastructure assets and managed space.

*Extremely high calibre services delivered with professionalism, incomparable efficiency and integrity, all of which are absolute requirements for our business."*

**CEO**  
International Family Office for High Net Worth Clients

*From the inception of an idea, we engaged with the Subrosa Group to partner with, and advise us on our journey to securing a site and licence. Throughout, their advice, candour and pragmatism has ensured that the security solution underwriting our site and licence is balanced, proportional and sympathetic to the unique island environment in which we intend to operate. Consummate professionals, dedicated to excellent service, Subrosa Group provided us with the security solution we needed."*

**Director and Business Development Manager**  
Channel Islands based Medicinal Cannabis business

*Subrosa Group have been integral in designing and installing our Integrated Security Solution using their Manned Security, Special Projects and Cyber Security services. We have always been impressed by their level of industry and regulatory knowledge and constant level of professionalism throughout. We look forward to a long-standing partnership with them in the future."*

**Campus Director**  
Medical Cannabis research facility

SRG has been providing security expertise to the medical cannabis sector since the industry's inception, having been recommended by clients who were already beneficiaries of SRG's tried and trusted security industry capability.

Subrosa is now the market leader in the provision of risk management, security consultancy and integrated security solutions to the UK and European Medical Cannabis sector.

The skills, knowledge and holistic approach drawn from years of experience in the private and commercial security sector lends itself to the comprehensive security needs in this growth market. SRG provides a single point of contact to guide the client through every possible aspect of security risk.

**This personalised approach ensures a cost effective integrated service delivery covering:**

- Risk Management & Security Consultancy
- Integrated Security Solutions Design and Procurement
- Physical and Technical Security Construction, Installation
- Project management
- Written Security Strategy, Policies, and Procedures
- Recruitment Screening
- Technical Security Systems Commissioning
- Police and Home Office liaison
- Security and Controlled Drug Law Training
- Steady State Security Operations (Security Managers and Security Officers)
- Physical and Technical Security System Service and Maintenance

Subrosa has supported several clients through the stringent licensing process demanded by the UK Home Office.

“SRG project managed our tasks from inception to commissioning. Their technical engineers always provide a very efficient and well managed service, even at short notice. They are also endlessly meticulous and tidy in their work areas during the installation of our systems.”

**Facilities Manager** Private Bank

SRG recognises the value of continually updating all aspects of their Technical Security division to ensure their client systems are at the forefront of technical developments, effectively maximising benefit and security.

The bespoke service begins at the initial enquiry and continues through consultancy to steady state operations. This comprehensive assessment will include system reviews, audits, design, project management, installation, commissioning and maintenance services, while concurrent risk analysis and site surveys ensure full compliance with relevant laws and regulations.

SRG's security surveys assess risks for likelihood and impact of occurrence, and those identified risks then dictate the correct control measures to be implemented, resulting in a significant reduction of those risks occurring.

SRG's exemplary security control measures include, but are not limited to:

#### Technical Security

- CCTV
- Access control
- Perimeter Intruder Detection Systems
- Intruder Detection Systems
- Fire protection control systems
- Technical counter security measures

#### Physical Security

- Security rated fences
- Defensive bollards
- Hostile Vehicle Mitigation
- Security rated gates, turnstiles and doors
- Toughened and ballistic glass
- Safe and panic rooms
- Safes and locks

“Our sites are not the friendliest environments for CCTV cameras, SRG's project team conducted site surveys and researched appropriate cameras for our sites. Project meetings were then held with full schematics to discuss the tactical camera placements and the rationale for each. Installation and commissioning dates were strictly adhered to. Their work areas are kept clean, tidy and safe always.”

**National Manager**  
International Waste Management Company

*Calm, sensible, experienced professionals. They consistently deliver safe and reliable solutions to security issues, resolving challenges with seamless operations and without fuss. They are strategically brilliant and effective."*

**Senior Partner** International Law Firm

*Extremely high calibre services delivered with professionalism, incomparable efficiency and integrity, all of which are absolute requirements for our business."*

**CEO** International Family Office for High Net Worth Clients

**SECURITY**

.....

**Demand for manned security often arises after other projects have been worked through and established, leaving assets in need of protection.**

As a result, SRG Security has become a major part of the business portfolio. SRG's focus on reliability, diligence, flexibility, reassurance and discretion has ensured repeat business from multiple clients over the years and recommendations to new clients.

SRG's reputation comes from having the most reliable personnel, with a significant quota drawn from the world renowned British Army Gurkhas who are known to be some of the most loyal, hard working and steadfast members of the British Armed Forces.

Personnel are given site-specific training and are fully prepared to respond effectively.

They are also provided with integrated technology enabling security patrols to record and deliver incident reports instantly.

**Manned security services include:**

- Security officers
  - Mobile security patrols
  - Alarm response
  - Key holding
  - K9 security
  - Event security
  - VIP residential security officers
- .....

When we have a data security concern, nothing is too much or too little for Subrosa to assist us with. The management team is readily available for liaison and are discreet and professional applying fast and practical solutions under pressure."

**Senior Partner** International Law Firm

Highly competent Cyber Security services delivered professionally and with incomparable efficiency, all of which are absolute requirements for our clients."

**Managing Director**  
ITC Services International Family Office

Organised crime syndicates are spending more time, effort and money than ever on cyber attacks which can see companies' data, investments and reputations collapse in a single transaction.

It can take years for a brand to recover its reputation after a data breach as well as managing any financial losses.

The exceptional experience and expertise of SRG's cyber security personnel, gathered from our special forces technical engineers and government agency specialists, focus on staying one step ahead of the ever changing and increasingly sophisticated threats.

SRG has highlighted that, in order to provide a total security solution, it is essential to secure your cyber perimeter, to develop and test your cyber defences and to train your staff.

People are the weakest links in cyber security, and it is worth taking time and effort to ensure robust policies for staff as to where cyber security weaknesses arise.

**SRG's unique Cyber Security Health Check includes:**

- Penetration testing of systems, network, and web applications
- Identify and assess vulnerabilities present in internal and cloud-based systems
- Identify configuration weaknesses that make systems vulnerable to attack
- Scan for and identify hidden malicious software
- Review system build for devices and servers
- Review current IT security deployment
- Review threat management and monitoring processes
- Review and assess for effective change management processes
- Raise threat awareness through entire organisation

*All instructors spoke, read and wrote perfect Arabic. All training aids and material was also delivered in faultless Arabic. The operational and instructional experience of all the Subrosa team was the exact combination we were looking for.*

**Ministry of Interior** Saudi Arabia

Europe

The Americas

Middle East and Asia

South East Asia

.....

**All aspects of SRG services are also implemented internationally and we are proud to deliver a global service to a diverse international client base.**

Subrosa's bespoke consultancy and operational service is offered to high net worth and ultra high net worth individuals and corporations who are looking to expand their global horizons.

**Company personnel has unrivalled knowledge on best business practice and cultural considerations of operating in complex regions, providing:**

- Corporate business intelligence
- Corporate operations advice
- Private client family safeguarding
- Security & Risk Management consultancy
- Security audits & reviews
- VIP Protection

SRG International has established partnerships with carefully selected and thoroughly vetted security companies around the world.

Their unique training service delivers internationally accredited courses in Arabic, Spanish and French to the government, military, police and commercial security sectors.

.....

## Strategic Partnerships

*Through their extensive expertise and experience within the security sector Subrosa has established unrivalled strategic partnerships across the globe.*

*Subrosa Group managed an extremely complicated multi-jurisdiction international investigation on behalf of our Middle Eastern client, assets were traced, located and recovered, much to the satisfaction of our client."*

**Partner**  
International Law Firm – London Office
